BC2023-146

Scope of Work Summary

DCFS is requesting approval of a contract with providers (see attached list) for adoption services in the amount of \$400,000.00

The prior contract for the 2021 -2022 was approved 2/8/2021 with approval number BC2021-59

To provide contract with local and out of state adoption providers for adoption services for a two year contract period. The anticipated start-completion dates are 01/01/2023 – 12/31/2024

The primary goals of the project are:

To find adoptions for children who come into the permanent care of the agency

To provide specific adoption services such as ensuring the providers home study assessors attend the CFS adoption matching conferences to represent their families, support and supervise adoption placements, submit required supervision reports, complete the required documents for the adoption finalization and the State requirement for visitation after the finalization..

The project is mandated by (provide the ORC statute with section numbers, Cuyahoga County Charter, etc).

In accordance with state law (per OAC 5101:2-48) and federal rules governing adoption, individuals/families are allowed to select an adoption agency of their choice to facilitate their adoption and a significant portion of the documentation/paperwork needed to complete an adoption cannot be exchanged between agencies. The majority of finalizations are the result of foster caregiver adoptions, in which the child is adopted by their current foster parent(s). Cuyahoga County Division of Children and Family Services (CCDCFS) already has board and care contracts in place with the majority of vendors the agency is seeking to contract with for adoption services. Furthermore, to accomplish this task, DCFS is asking for permission to do the following: to utilize current contracted providers for the next two years; to select future providers identified by families that will provide adoption services; and for permission to execute two-year termed contracts (for the time period of 1/1/2023 to 12/31/2024) for providers included in this justification as well as adoption service providers identified in the future.

Additionally in accordance with the state and federal rules governing adoption CCDCFS is required to consider any family who can best meet the needs of the child who is available for adoption regardless of the family's geographic location. Therefore, CCDCFS is required to contract with vendors outside of the county and state.

The vendors CCDCFS is seeking to contract with currently have permanent custody children placed within their foster care network in which the foster family has expressed an interest in adopting or the family has an approved adoptive home study with the vendor and has been identified as a match with a specific "waiting" child.

Procurement

The procurement method for this project was RFP exemption. The total value is \$400,000.00.

An RFP exemption requested in accordance with state law (OC 5101:2-48) and federal rules governing adoption, individuals/families are allowed to select an adoption agency of their choice to facilitate their adoption and a significant portion of the documentation/paperwork need to complete an adoption cannot be exchanged between agencies. This master agreement allows us to contract with a variety of agencies who provide these services and other vendors may be added throughout the agreement period if families choose to work with them

Child is currently on medication for her depression and anxiety. Child will be entering 12th grade at Glen Oak High School this year. She has an IEP. Excels academically. She is in PPLA of the agency and has reached age of majority.

She has engaged in a pattern of behavior that places both herself and foster mother at risk of harm. Such behavior has included aggression, property destruction, walking outside nude or in only her underwear, making false allegations of abuse in the foster home. She has been in several respite homes since the incident on 08/18/2022. On 08/18/2022, the confrontation escalated to her becoming physically aggressive, breaking items in the home, throwing clothing out the second story window, going outside naked to retrieve the clothing. She had also reportedly made false allegations of physical abuse.

Permanent placement was still needed, and A Loving Heart was the only provider that offered him a placement.

This agency does not have a current contract, which is why we are using a mission critical purchase.

The primary goals of the project are (list 2 to 3 goals).

Adding another provider to add another location.

Adding a provider to suit the need of these specific children.
