Service/Item Description (include quantity if applicable).  
The Department of Information Technology plans to amend Contract No. 1086 with AT&T Corp, to extend the time period to December 31, 2025 for Centrex Telephone Services in the amount of \$400,000.00. This 4<sup>th</sup> amendment agreement is for the Centrex Telephone connections from AT&T that serves as the telephone infrastructure for various County facilities.

For purchases of furniture, computers, vehicles:  Additional  Replacement  
Age of items being replaced: \_\_\_\_\_ How will replaced items be disposed of? \_\_\_\_\_

Project Goals, Outcomes or Purpose (list 3):  
The Centrex telephone service is considered to be antiquated technology, thus the likelihood of a vendor being able to provide this as a new service to the Cleveland, Ohio area is unlikely.

The County buildings in which the Centrex service is primarily prevalent in is the Old Court House building and the Justice Center Complex. To migrate off of this Centrex service to a modern telephone service will be a costly undertaking and timely effort in which the IT Department has been delaying this as a project as to be the best stewards of the taxpayers dollars; as a determination of the Justice Center’s future (renovation or build a new facility) is evaluated and decided. Unfortunately, it was learned during this renewal discussion with AT&T that the company is looking to retire the Centrex service. Alternative services will most likely need to be sought after for the Justice Center or Old Court House before action will be taken regarding renovating or building replacement buildings for the Court and Justice Center occupants.
