## PROJECT DESCRIPTION

**REQUEST DESCRIPTION (include the project name, a description of the project, why the project is important or needed, and timeline of milestones/tracking of the project):**

This request is for five Automated External Defibrillators (AEDs) to replace units that are outdated and no longer serviceable because replacement parts, e.g., batteries and pads, are not available.

The Rocky River Division of Police has deployed AEDs in police vehicles for well over a decade, equipping patrol officers, often the first to arrive at the scene of a medical emergency, with this life-saving device. Rocky River Patrol Officers respond to most ambulance calls for service, and often arrive before paramedics. We also equip the Marine Patrol with an AED so officers patrolling Lake Erie and the Rocky River are also equipped to administer first aid in the event of a cardiac arrest.

Over time, AEDs need replacement parts, including batteries and pads placed on the patient. Several of our current AEDs are no longer able to be used because the manufacturer does not make replacement parts, leaving several cars and the police boat without one.

Patrol officers are CPR certified, which includes training in the use of an AED.

If approved, the AEDs would be ordered as soon as funds are received and deployed immediately.

**Project Start Date:**

Immediately upon funding

**Project End Date:**

Project is ongoing; no projected end date

## **IMPACT OF PROJECT:**

### **Who will be served:**

The AEDs will be used by Rocky River patrol officers and auxiliary officers. All residents and guests of the Rocky River Community will benefit from the deployment of AEDs in police patrol vehicles and on the marine patrol vessel.

### **How many people will be served annually:**

All residents, workers, and guests that visit the Rocky River community will be better served with the addition of AEDs in police patrol vehicles. Current residential population in Rocky River is 21,137. The City has a robust retail and restaurant presence that bring many visitors every day.

### **Will low/moderate income people be served; if so how:**

All people suffering a medical emergency in the City of Rocky River will benefit from the availability of an AED.

### **How does the project fit with the community and with other ongoing projects:**

Placement of an AED and strategic locations throughout the City has been an ongoing effort for over a decade. Most City facilities and many private businesses are equipped with AEDs. Replacing AEDs in police patrol vehicles is consistent with that effort.

### **If applicable, how many jobs will be created or retained (specify the number for each) and will the jobs be permanent or temporary:**

N/A

### **If applicable, what environmental issues or benefits will there be:**

### **If applicable, how does this project serve as a catalyst for future initiatives:**
